

PARENT FEEDBACK

**WEDNESDAY 8TH
MARCH 2017
5:45 - 6:45pm**

Revision is a nightmare! Too much, too little, what works, what does not, how often, whenHELP!

The next few months will be a stressful time for students as they work hard and revise in preparation for their exams. Parents commonly feel the same stress in the run up to the exams, often accompanied by a feeling of isolation or helplessness. The Parent Forum aims to support parents with a knowledge and understanding of what works when revising or learning. Everything from wellbeing to knowledge organisers will be shared and explained so you can effectively support and guide your child at home.

If you would like to attend please contact reception as places are limited.

AGENDA

How to support revision and learning activities at home.

The Community College
Whitstable
